

Cabernet

Type of Wine:	Cabernet
Cultivation:	The support system is a wire frame. The grape cluster has fairly small grapes. In good weather condition, they can be harvested by the end of October, which is later than other grapes.
Vinification:	Fermentation takes place in stainless steel vessels. Thereafter, it matures for 2 years in barrique barrels, wooden barrels with a capacity of 225 litres.
Characteristics:	Color: dark ruby-red Smell: fruity, with hints of black current, blackberries and cranberries Taste: dense, intense and harmonious
Wine Food Pairing:	grill, game, steaks, roast beef and aged cheese
Drinking Temperature:	18°C
Acidity:	4,19 g/l
Alcohol Content:	14,56 %vol
